

Comic Wastepaper Bin

You will need:

An old plastic rubbish bin
(a metal one is ok too)
Lots of old comics
PVA glue
PVA glue and water

Steps:

1. Choose some good pictures from the comics and cut them out.
2. Put PVA glue onto the bin.
3. Put the pieces of the comics into place.
4. After covering the whole bin like this, you must cover the pieces of comic with a mixture of PVA glue and water. This will keep the comic pieces in place and make the bin shine.
