

# RWC 2015 TV Rate Card

*All rates quoted are GBP*

17 February 2015

17:13:52

## 1. Venue

### 1.1 TV Commentary

1.1.100	Equipped Commentary Position inc ISDN comms unit	2700	3 person desk, 2 x monitors, ISDN commentary unit inc 2 headsets, ref mic feed, int snd feed
1.1.200	ISDN2e Line	750	<p>Provides a basic rate ISDN (2e) circuit with two separate data channels of 64Kbps and one signalling channel of 16Kbps.</p> <p>High speed connections for clear voice transmission and fast data transfer supporting the transmission of voice, data and text.</p> <p>Pay as you use, multi-site high speed communications with national call rates and to any national ISDN or PSTN site.</p> <p>International access to a wide range of countries. An up-to-date list can be provided on request.</p> <p>Line rental cost is per venue for the duration of the tournament. Call costs extra (billed post tournament).</p>
1.1.300	Partially Equipped Commentary Position no ISDN comms unit	2500	3 person desk, 2 x monitors, ref mic feed, int snd feed [no ISDN commentary unit]
1.1.301	Un-equipped commentary position	FOC	
1.1.500	Sideline Commentary Position linked to existing comm position	2500	1 seat, 1 x monitor, ref mic feed, int snd feed
1.1.501	Un-equipped sideline commentary position	FOC	
1.1.700	Additional Headset at commentary position	50	
1.1.710	Referee mic split	175	
1.1.800	Commentary Information System ('CIS') per match	350	Free of charge when ordered with an equipped or partially equipped commentary position
1.1.900	Wireless Internet Service (Not available at Ends of Field)	FOC	Supports 802.11 Wi-Fi connections to both 2.4Ghz and 5Ghz Wi-Fi bands above connection rates of 10Mbps. Both bands support 802.11n. Contention ratio is 1:20
1.1.910	Fixed Wire Internet Service	FOC	<p>This solution provides a single Ethernet (RJ45) connection for cabled internet connectivity at each commentary position.</p> <p>10Mbps internet symmetrical access with 1:20 contention ratio.</p> <p>This service can only be connected to a single end user device and cannot be used to connect to multiple devices or any network infrastructure.</p>
1.1.920	Dedicated Internet Access 10Mbps	1500	<p>Dedicated internet available with symmetric throughput available as 10Mbps service with 1:1 contention ratio.</p> <p>Delivered through a single Ethernet (RJ45) outlet to a location specified in the order.</p> <p>Each dedicated internet access service will be provided with one (1) static IP address.</p> <p>Cost is per port per venue for the duration of the tournament.</p>

1.1.930	Dedicated Internet Access 20Mbps	2500	Dedicated internet available with symmetric throughput available as 20Mbps service with 1:1 contention ratio. Delivered through a single Ethernet (RJ45) outlet to a location specified in the order.  Each dedicated internet access service will be provided with one (1) static IP address.  Cost is per port per venue for the duration of the tournament.
---------	----------------------------------	------	---

### 1.3 Unilateral camera positions

1.3.100	Unilateral camera position (ground level)	FOC	Generally corner flag position
1.3.101	Unilateral camera position (elevated)	FOC	

### 1.4 Flash Interview Position

1.4.110	Post Match Flash interview slot	FOC	TV lighting included
1.4.120	Post Match unilateral non-english I/V request	FOC	

### 1.5 Pre/Post match associated facilities

1.5.100	Pre match unilateral two cameras (10 min slot)	950	Will take place at Host broadcast pitchside presentation position. Lighting and power provided.
1.5.110	Pre match unilateral one camera (10 min slot)	750	Will take place at Host broadcast pitchside presentation position. Lighting and power provided.
1.5.120	Post match unilateral one camera (10 min slot)	750	Will take place at Host broadcast Flash Interview Room/Area. Lighting and power provided.

## 1.6 TV Compound

1.6.120	OB Van Parking inc 16A single phase power	3000	Single phase 230v @ 50Hz presented as P + N + E
1.6.125	OB Van Parking inc 16A three phase power	3000	Three phase 400v @ 50Hz presented as 3P + N + E. This item upon request only.
1.6.130	OB Van parking inc 32A single phase power	3500	Single phase 230v @ 50Hz presented as P + N + E
1.6.135	OB Van parking inc 32A three phase power.	3500	Three phase 400v @ 50Hz presented as 3P + N + E.
1.6.140	OB Van parking inc 63A single phase power	4500	Single phase 230v @ 50Hz presented as P + N + E
1.6.145	OB Van parking inc 63A three phase power.	4500	Three phase 400v @ 50Hz presented as 3P + N + E.
1.6.150	OB Van parking inc 125A single phase power	5500	Single phase 230v @ 50Hz presented as P + N + E
1.6.155	OB Van parking inc 125A three phase power.	5500	Three phase 400v @ 50Hz presented as 3P + N + E.
1.6.158	SNG parking inc 16A single phase power	2500	Single phase 230v @ 50Hz presented as P + N + E
1.6.159	OB Van parking inc 16A three phase power.	2500	Three phase 400v @ 50Hz presented as 3P + N + E. This item upon request only.
1.6.160	SNG parking inc 32A single phase power	2500	Single phase 230v @ 50Hz presented as P + N + E
1.6.165	SNG parking inc 32A three phase power.	2500	Three phase 400v @ 50Hz presented as 3P + N + E.
1.6.170	SNG parking inc 63A single phase power	3500	Single phase 230v @ 50Hz presented as P + N + E
1.6.175	SNG parking inc 63A three phase power.	3500	Three phase 400v @ 50Hz presented as 3P + N + E.
1.6.180	Space for tender	2000	
1.6.190	Portacabin 6m x 2.5m	4000	
1.6.200	Playout to PTT/IBC 10 mins	1000	
1.6.210	Tactical/Beauty Cam (RWC watermark during play only)	500	
1.6.220	World Feed Dirty HD (5.1 embedded)	FOC	
1.6.230	Camera ISO (HD)	500	
1.6.240	Wireless Internet Service (Not available at Ends of Field)	FOC	Supports 802.11 Wi-Fi connections to both 2.4Ghz and 5Ghz Wi-Fi bands above connection rates of 10Mbps. Both bands support 802.11n. Contention ratio is 1:20
1.6.260	Dedicated Internet Access 10Mbps	1500	<p>Dedicated internet available with symmetric throughput available as 10Mbps service with 1:1 contention ratio. Delivered through a single Ethernet (RJ45) outlet to a location specified in the order.</p> <p>Each dedicated internet access service will be provided with one (1) static IP address.</p> <p>Cost is per port per venue for the duration of the tournament.</p>

1.6.270	Dedicated Internet Access 20Mbps	2500	<p>Dedicated internet available with symmetric throughput available as 20Mbps service with 1:1 contention ratio.</p> <p>Delivered through a single Ethernet (RJ45) outlet to a location specified in the order.</p> <p>Each dedicated internet access service will be provided with one (1) static IP address.</p> <p>Cost is per port per venue for the duration of the tournament.</p>
1.6.280	ISDN2e Line	750	<p>Provides a basic rate ISDN (2e) circuit with two separate data channels of 64Kbps and one signalling channel of 16Kbps.</p> <p>High speed connections for clear voice transmission and fast data transfer supporting the transmission of voice, data and text.</p> <p>Pay as you use, multi-site high speed communications with national call rates and to any national ISDN or PSTN site.</p> <p>International access to a wide range of countries. An up-to-date list can be provided on request.</p> <p>Line rental cost is per venue for the duration of the tournament. Call costs extra (billed post tournament).</p>
1.6.290	PSTN	500	<p>PSTN Telephone service without handset</p> <p>Usage charges are additional - rates will be provided on request.</p> <p>Cost is per port per venue for the duration of the tournament.</p>
1.6.300	PSTN with phone	518	<p>PSTN Telephone service with handset (BT Converse 2100 Black corded phone).</p> <p>Usage charges are additional - rates will be provided on request.</p> <p>Cost is per port per venue for the duration of the tournament.</p>
1.6.310	IP Phone Line & Phone (HUCS)	200	<p>Provides telephony services only (DDI included) and does not include support for other modes of communication such as video conferencing or instant messaging and presence.</p> <p>Usage charges are additional - rates will be provided on request.</p> <p>Cost is per port per venue for the duration of the tournament.</p>
1.6.320	ADSL	640	<p>The broadband internet service is an Asynchronous Digital Subscriber Line (ADSL) type service. ADSL refers to the provision of internet services via a hub/router capable of both cabled and wireless (Wi-Fi) connectivity over a copper cable. This service will be provided with four Ethernet ports and Wi-Fi capability. England 2015 retains the right to switch off the wireless component in the event of interference.</p> <p>Cost is per port per venue for the duration of the tournament.</p>

## 1.7 Onsite studios

1.7.100	Pitch-side presentation	FOC	Available pre and post. Power and lighting can be supplied at extra cost.
1.7.105	On site studio (power costs TBA)	FOC	Space available at some venues (normally used with uni OB van)
1.7.110	Wireless Internet Service (Not available at Ends of Field)	FOC	Supports 802.11 Wi-Fi connections to both 2.4Ghz and 5Ghz Wi-Fi bands above connection rates of 10Mbps. Both bands support 802.11n Contention ratio is 1:20
1.7.120	Fixed Wire Internet Service	FOC	This solution provides a single Ethernet (RJ45) connection for cabled internet connectivity at each on-site studio. 10Mbps internet symmetrical access with 1:20 contention ratio. This service can only be connected to a single end user device and cannot be used to connect to multiple devices
1.7.130	Dedicated Internet Access 10Mbps	1500	Dedicated internet available with symmetric throughput available as 10Mbps service with 1:1 contention ratio. Delivered through a single Ethernet (RJ45) outlet to a location specified in the order.  Each dedicated internet access service will be provided with one (1) static IP address.  Cost is per port per venue for the duration of the tournament.
1.7.140	Dedicated Internet Access 20Mbps	2500	Dedicated internet available with symmetric throughput available as 20Mbps service with 1:1 contention ratio. Delivered through a single Ethernet (RJ45) outlet to a location specified in the order.  Each dedicated internet access service will be provided with one (1) static IP address.  Cost is per port per venue for the duration of the tournament.
1.7.150	ISDN2e Line	750	Provides a basic rate ISDN (2e) circuit with two separate data channels of 64Kbps and one signalling channel of 16Kbps. High speed connections for clear voice transmission and fast data transfer supporting the transmission of voice, data and text.  Pay as you use, multi-site high speed communications with national call rates and to any national ISDN or PSTN site. International access to a wide range of countries. An up-to-date list can be provided on request.  Line rental cost is per venue for the duration of the tournament. Call costs extra (billed post tournament).
1.7.160	PSTN	500	PSTN Telephone service without handset Usage charges are additional - rates will be provided on request.  Cost is per port per venue for the duration of the tournament.
1.7.170	PSTN with phone	518	PSTN Telephone service with handset (BT Converse 2100 Black corded phone).  Usage charges are additional - rates will be provided on request.  Cost is per port per venue for the duration of the tournament.
1.7.180	IP Phone Line & Phone (HUCS)	200	Provides telephony services only (DDI included) and does not include support for other modes of communication such as video conferencing or instant messaging and presence.  Usage charges are additional - rates will be provided on request.  Cost is per port per venue for the duration of the tournament.

1.7.190	ADSL	640	The broadband internet service is an Asynchronous Digital Subscriber Line (ADSL) type service. ADSL refers to the provision of internet services via a hub/router capable of both cabled and wireless (Wi-Fi) connectivity over a copper cable. This service will be provided with four Ethernet ports and Wi-Fi capability. England 2015 retains the right to switch off the wireless component in the event of interference.
Cost is per port per venue for the duration of the tournament.			

## 1.8 Unilateral Circuits

1.8.200	Unilateral Fibre to SIS LIVE MCUK per day	1500	7 hours duration using 100Mbps JPEG-2000 encoding. Fibred venues: Twickenham Wembley Stadium Millennium Stadium Olympic Stadium Villa Park St James Park Leicester City Stadium City of Manchester Stadium
1.8.210	Unilateral Fibre to SIS LIVE MCUK First Hour	400	100Mbps JPEG-2000 encoding Fibred Venues: Twickenham Wembley Stadium Millennium Stadium Olympic Stadium Villa Park St James Park Leicester City Stadium City of Manchester Stadium
1.8.220	Unilateral Fibre to SIS LIVE MCUK Subsequent Hours	200	100Mbps JPEG-2000 encoding Fibred Venues: Twickenham Wembley Stadium Millennium Stadium Olympic Stadium Villa Park St James Park Leicester City Stadium City of Manchester Stadium
1.8.230	SIS onpass to BT Tower (per hour)	50	
1.8.240	SIS onpass to IBC (IMG Studios)(per hour)	100	
1.8.250	SIS LIVE HD Uplink Truck inc engineer using SIS satellite space (per day)	950	18MHz European space is £260/hr. Other bandwidths/satellites available on request
1.8.260	SIS LIVE HD Uplink Truck inc engineer using customer satellite space (per day)	1100	

## 1.9 Other Unilateral Requests

1.9.100	Match Observer Seat Requests	FOC	
1.9.110	Parking Requests	POA	Limited Availability
1.9.120	Catering Requests	TBC	
1.9.130	Talent and Producer catering	FOC	
1.9.140	Additional paid catering	TBC	
1.9.150	Match ticket requests	TBC	Limited availability

## 2. IBC

### 2.1 Match associated

2.1.100	Bookable edit (Avid MC with access to match footage) 8hrs with editor	1000	
2.1.110	Bookable edit (Avid MC with access to match footage) 4hrs with editor	750	
2.1.120	Bookable off-tube (2 person) inc stereo circuits	1350	
2.1.130	Internet Access (dedicated wired 2Mbs)	500	
2.1.140	CIS/TIS	TBC	CIS if available or TIS
2.1.150	Bookable edit (Avid MC with access to match footage) 4hrs dry hire	250	
2.1.160	Referee mic split	150	
2.1.170	Radio World Feed	1000	Available at IBC/PTT
2.1.180	Host Commentary	FOC	

### 2.2 Permanent Facilities

2.2.100	VandA package (HD with embedded 5.1)	500	
2.2.105	Multi Language Graphics	25000	
2.2.110	Pre-designed space/portacabin 6 x 2.5m (15 m2) nc 16A power	10000	
2.2.120	Additional 16A power	1500	
2.2.130	Optional a/c per 15m2	4000	
2.2.140	Customised contruction - raw space per m2	POA	
2.2.150	IPTV monitor	500	
2.2.160	IPTV STB	250	
2.2.210	ISDN Line	750	<p>Provides a basic rate ISDN (2e) circuit with two separate data channels of 64Kbps and one signalling channel of 16Kbps.</p> <p>High speed connections for clear voice transmission and fast data transfer supporting the transmission of voice, data and text.</p> <p>Pay as you use, multi-site high speed communications with national call rates and to any national ISDN or PSTN site.</p> <p>International access to a wide range of countries. An up-to-date list can be provided on request.</p>
2.2.220	Media Server - browse	10000	IPD with browse access to all matches, melt reels, highlights. 1Gb ethernet connection to RHB EVS system
2.2.230	Media Server - browse and edit	25000	Avid Edit with IP Browse access too all matches, melt reels and Highlights.
2.2.260	Dedicated VandA to PTT extension	TBC	per hour
2.2.300	Internet Connection 10Mbps	1500	
2.2.310	Internet Connection 20Mbps	2500	
2.2.320	Fibre Optic Feed termination in CTA (co-location)	POA	Rack space, power, air-conditioning, router ports

### **2.3 Bookable Facilities**

2.3.330	100 m2 studio with chroma-key backing + MCR + PTT circuit 60mins	POA	
2.3.340	Stand-up position + MCR + PTT circuit 10 mins	POA	
2.3.350	Tape/file playout to PTT 15 min	30	HDCAM, XDCAM supported
2.3.360	Tape to server ingest 30 min	120	HDCAM, XDCAM supported

### **2.4 Satellite Farm**

2.4.370	SNG Area (40m2) inc 32A power	TBC	
---------	-------------------------------	-----	--
